- Helleborus
- Hypoestes
- Kalanchoe
- Oxalis
- Peperomia
- Primula
- Rhododendron simsii
- Saintpaulia
- Sedum
- Schlumbergera

WINTER 2012

The winds of change blow from the east. We turn our gaze to distant climes, and find new and colourful inspiration. The Middle Eastern and African love of pattern, colour and ornamentation combines with Scandinavian aesthetics to form an artistic expression. Interiors are characterised by a cultural melting pot with a distinctively Scandinavian touch. A complex mix of colours and patterns forms the basis for a style that bears the imprint of individual inspiration from around the world. The design idiom is based on organic, geometric and artistic forms.
